

Stenersen Chartering AS was established in 2011. Our office is located in Oslo, Norway.

Stenersen Chartering AS commercially manage a fleet of highly sophisticated chemical / product tankers for trading in harsh and rough environment, which includes areas covered in ice. We focus on delivering reliable service and efficient shipping solutions to our customers and partners.

We can offer our customers spot, coas or Time charter solutions, as well as commercial management solutions to third parties.

We use one of the best commercial maritime software solutions that enable us to streamline the flow of information and drive strategic thinking.

Short highlights, all our vessels are equipped with:

- Vapor Return and Inert Gas
- "Take me home"
- IMO II
- ICE Class 1A
- Framo deepweel cargo pumps
